Brief of Koh Chang

A stretch of long white sandy beach dotted with coconut tree orchards is a common sight on **Koh Chang** the largest and busiest island in Trat and the second largest island in the country after Phuket.

Covering an area of 429 square kilometers, **Koh Chang**, boasts several amazing natural wonders that blend magnificently with the traditional way of life such as 70 percent undisturbed island rainforest, steep hills, cliffs, waterfalls, and notable wildlife, fine beaches, coral reefs and an abundance of marine life. In addition, numerous fruit orchards draw the island.

Most of the scenic beaches and bays are on the west side spreading from the north to the south that include *Ao Khlong Son*, *Had Sai Khao*, *Had Khlong Phrao* and *Had Kai Bae*. A road cuts through the western shore almost reaching *Had Kai Bae* where there is a nature trail passing through *Ao Bai Lan* and *Ao Kruat* and meandering through wet forestland to *Ban Bang Bao*, a fishing community on the foot of the hill in the south.

At the east are *Ao Sapparot*, where a ferry landing is situated and *Ao Salak Khok*. In addition,

along the eastern shoreline is a road cutting through to *Ao Salak Phet*, a community with a boat pier to the south of the island. Coral ranges worth visiting are at *Ao Khlong Son* near *Koh Chang Noi* and around islands south of **Koh Chang**.

In addition to sea-based attractions **Koh Chang** has numerous inland attractions including several waterfalls with reasonable access. They are the *Khlong Phlu Waterfall*, 3 kilometers from *Ao Khlong Phrao* and a further 20 minutes on foot; *Khlong Nonsi Waterfall*, a 4-kilometre walk from park headquarters; and *Khiriphet and Khlong Nung falls*, which are about 3 kilometers from Ban Salak Phet.

As well as the obvious activities **Koh Chang** offers many other attractions including waterfalls, temples, the National Park and Museum or the beautiful scenic lookout points, which are all worth a visit. Divers will find fascinating diving areas off of the shores of **Koh Chang** and the surrounding islands. Besides the many coral reefs, sunken warships, a reminder of times past, can be visited in the *Salak*

Phet Bay.

The Koh Chang National Park occupies an area of 650 square kilometers and is comprised of 52 islets, which spread from Laem Ngob to Klong Yai Districts. The most popular islands includes *Koh Chang*, *Koh Klum*, *Koh Ngam*, *Koh Lao Ya* and *Koh Rung* where natural wonders await travelers. The most popular season for traveling to the National Park is from November to March. The park headquarters are divided into 4 units namely *Tha Than Mayom*, *Ban Khlong Son*, *Tha Khlong Plu* and *Ban Salak* which provide useful tourist information. At any one of the headquarters, an entry fee of 200 baht is col-
